STATE LANDS – OPEN SPACE
PETITION

We, the below-listed individuals, agree with and support the following Vision Statements for the parcel of State Trust Land located between Fox Farm Road and the Missouri River and adjacent to Grizzly Drive:

1. The state lands between Fox Farm Road and the Missouri River should be dedicated and preserved as open space for the present and future generations of residents throughout the Great Falls region.
2. This site should be a destination area for recreational and educational activities while smart growth occurs around it.
3. This land should be used for education purposes because of its status as virgin prairie, its unique historical and cultural worth and its diverse animal habitat.
